Re: One Economy's Comments to WC Dockets 11-42 and 03-109 and CC Docket 96-45

Dear Chairman Genachowski:

In the wake of the National Broadband Plan recommendations and the opportunity provided to us by the rapid pace of technological change, One Economy respectfully submits the attached comments on the Universal Service Fund, with specific focus on Lifeline and Link Up. We believe there is no other policy level in the Federal Communications Commission's arsenal that could make such a deep and lasting impression upon the low-income, minority, and unserved communities that we serve, and our recommendations reflect the need for swift action by the Commission. Please do not hesitate to contact me if your office would like to discuss these comments in any further detail.

We appreciate your consideration.

Sincerely,

Kelley Dunne  
Chief Executive Officer  
One Economy Corporation
